

SWADHYAY HERALD

From the Principal's desk

Ms. SHOBANA NAIR

This academic year marks a significant milestone in our school's journey as we transition from the State Board to the Council for the Indian School Certificate Examinations (CISCE). The change reflects our continuous pursuit of academic excellence and holistic development. Embracing the CISCE curriculum has inspired innovative teaching methodologies, a stronger focus on conceptual understanding, and experiential learning. Our teachers have undergone comprehensive training to align with the new pedagogical approaches, ensuring a smooth and enriching learning experience for students. The curriculum's emphasis on critical thinking, creativity, and communication skills has brought renewed enthusiasm into our classrooms. With this transition, our school reaffirms its commitment to nurturing confident, responsible, and future-ready learners. It is indeed a proud moment as we move forward with a progressive vision, fostering excellence at every step.

HONOURED WITH EMERGING ICSE SCHOOL AWARD BY THE TIMES OF INDIA

“Echoes of Learning, Reflections of Growth”

Teacher’s Reflection

- Attending the two-day Economics training workshop in Kolkata was a truly valuable experience for me. The sessions deepened my understanding of the syllabus for Classes 9 and 10 and gave me new perspectives on how to make lessons more engaging and meaningful. I learned how to frame effective MCQs and Higher Order Thinking (HOTs) questions, which will help me assess my students more creatively. The discussions on marking schemes and paper patterns gave me greater clarity about examination expectations. I especially enjoyed interacting with fellow teachers, exchanging ideas, and learning from their classroom experiences. The workshop inspired me to adopt more activity-based and analytical approaches in my teaching. Overall, it was an enriching experience that strengthened both my confidence and enthusiasm for teaching Economics."

-Bhavika Mehta

- The 5-day CISCE training in Hyderabad was an enriching experience that enhanced my understanding of effective assessment techniques and question-setting patterns suited to students’ learning levels. Emphasis was placed on framing questions that promote critical thinking, civic sense, and humanitarian values through personal responses. The sessions encouraged integrating moral reflection within language and literature lessons. Special focus was given to identifying and discussing common grammatical errors to improve accuracy and expression. The program inspired innovative classroom practices that make teaching more engaging, analytical, and value-based. Overall, it was a valuable learning platform that strengthened both pedagogical and emotional connect with learners.

"Echoes of Learning, Reflections of Growth"

Students Experiences

"Every student's experience is a story in the making — filled with lessons that go beyond the classroom."

- "Transition" is a thought-provoking journey that captures the essence of change — emotional, psychological, and situational. The transformation from SSC to ICSE has both been challenging and enlightening for us. Although we started at a slow pace, we are regaining our stature. Every learning day assures us for a better future in ICSE board.
-Samaira Jain VIII A
- From SSC roots to the ICSE journey, we experience real growth and change. Learning now focuses on inquiry and understanding, not just memorizing. English encourages expression and critical thinking, while math and science build reasoning and clarity. Projects, practicals, and teamwork make learning more real and engaging. With our teachers' guidance, we turn challenges into confidence and learning into transformation.
-Hitarth Kubadia IX B

Parent's Reflections

"In reflecting on their child's journey, parents discover how much they've grown too."

- Our school truly believes in holistic development, where learning is fun, play-based, and project-oriented. Equal emphasis is given to sports, keeping students active, confident, and healthy. Unique subjects like Garba, Robotics, and Drama add creativity and joy to every child's learning journey. The teachers focus on each child's strengths, progress, and overall growth, ensuring that every student feels valued and supported. Coming from a previous school that was purely academic-focused, I have seen a remarkable positive change in my child. Now, my child is more confident, expressive, and happy, enjoying learning through activities and experiences. The lively atmosphere and variety of engaging opportunities make my child look forward to school every day.
-Darshika Amaranian III A
- I found that the ICSE board has a broader and more detailed curriculum compared to the state board. It gives more importance to understanding concepts rather than rote learning. English language skills are emphasized more. It encourages analytical thinking and overall development. I believe that this change in board will help my child to develop stronger conceptual understanding and better communication skills. The focus on projects and application based learning will make studies more interesting and improve critical thinking. It will build a strong foundation and will prepare my child for future competitive exams and higher studies.

THE SPOTLIGHT ZONE CISCE TOURNAMENT

A CISCE National-Level Throwball Tournament was held in Gorakhpur, Uttar Pradesh, and I had the opportunity to represent Maharashtra. Many strong teams participated, each with their own unique style of play. **THOUGH**, my team lost in the semi-finals, **WE SECURED 3RD PLACE**. It was a wonderful experience that taught me a lot.

HETVI MARU IX B

I was selected to represent the Maharashtra U-14 team in the CISCE National Level Throwball Tournament held in Gorakhpur, Uttar Pradesh. We reached the semifinals but couldn't make it to the finals, and unfortunately lost the third-place match as well. Despite the outcome, it was an amazing experience. We learned a lot from our opponents and gained valuable insights into teamwork and strategy. Overall, it was a memorable and enriching journey for me and my entire team.

MANVI JAIN VIII B

I was recently selected to participate in the CISCE National-Level Volleyball Tournament held in Tamil Nadu. It was an entirely new and enriching experience for me. Our team worked hard with great determination, and we proudly secured third place.

ABOUT OUR CLASS

ABOUT OUR CLASS

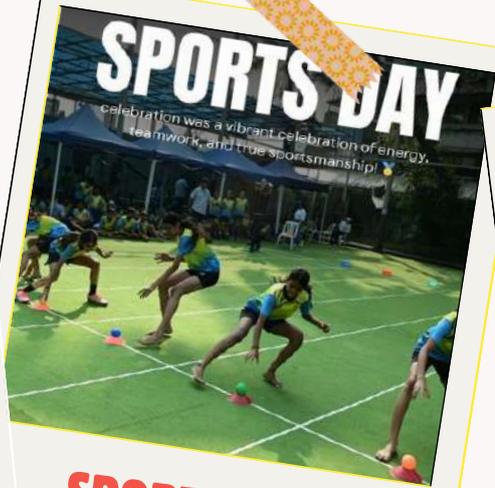

Our class is a vibrant and supportive learning community where everyone is encouraged to grow, share ideas, and help each other succeed. We work together on projects, participate in fun activities, and learn new things every day. With respect, teamwork, and curiosity at the heart of everything we do, our class is not just a place to study—it's a place where friendships are built and memories are made.
