

SWADHYAY HERALD

From the Principal's desk

Ms. SHOBANA NAIR

The completion of our transition from the SSC Board to the CISCE Board marks a significant milestone in the journey of our institution. This change was not merely administrative; it was a thoughtful step towards enriching the academic experience of our students and aligning ourselves with a curriculum that promotes conceptual clarity, analytical thinking, and holistic development.

Over the past year, our teachers have undergone rigorous training and curriculum planning to ensure a smooth and effective implementation of the CISCE framework. Classrooms have evolved into more interactive and inquiry-based learning spaces, encouraging students to explore, question, and apply their knowledge creatively. The emphasis on practical learning and strong language development has already begun to reflect positively in student engagement and confidence.

I sincerely appreciate the adaptability of our students and the unwavering support of our parents throughout this transition.

“Echoes of Learning, Reflections of Growth”

Student's Experiences

“Every student's experience is a story in the making — filled with lessons that go beyond the classroom.”

- The CISCE curriculum places strong emphasis on detailed answers and effective writing skills. I have noticed a clear improvement in the way I express my thoughts. Rather than memorizing lessons only for examinations, I now focus on understanding concepts more deeply. The syllabus is well-structured and concept-oriented, which makes learning clearer and more meaningful. Although it requires more effort, it also makes me feel more confident and capable. With the support and guidance of our teachers, the transition was smooth and encouraging. Overall, this change has helped me grow academically and strengthened my confidence in my abilities.
- Entering in a new world of CISCE, we experienced a big change in our progress because now the learning is not merely by memorizing, it is by understanding concepts. In CISCE special emphasis is given to English thereby resulting in superior communication skills. Application based learning has been seen in subjects like Math, Economics and Commercial Application. Projects, Assignments and Workshop based learning activities are exposing us to various topics and encourage us to explore them. Without our teachers' efforts and continuous guidance it would have been difficult to adapt this new changes.

Parent's Reflections

“In reflecting on their child's journey, parents discover how much they've grown too.”

- The overall progress of (CISCE) has been highly commendable especially in terms of application based assessment patterns with statement based questions in form of MCQs where students need to think critically and apply analytical reasoning to answer in case of Mathematics and Science. Also, students are actively engaged in classroom projects across all subjects to help nurture creativity, communication skills and overall holistic development.

Vyom Nikhil Jain -4 A

- I would like to share a few words about our wonderful school. Our school is truly a second home for our children, where they learn and grow every single day. The teachers are kind, supportive, and always ready to guide them. They not only focus on academics but also nurture good values, discipline, and respect. The school provides many opportunities for students to participate in sports, competitions, and cultural activities. These experiences help them build confidence, discover their talents, and believe in their abilities. The Principal and teachers put in great effort to ensure the school maintains high standards in every area. We feel proud and grateful that our children are a part of this institution. Thank you to the school for shaping their future and helping them become responsible and compassionate individuals. Our school is not just a place of learning — it is a foundation built on knowledge, care, and cherished memories.

“Echoes of Learning, Reflections of Growth”

Teacher’s Reflection

- The CISCE Zonal Training Programme proved to be an exceptionally enriching and insightful experience for all participating teachers. The sessions were particularly engaging and interactive, combining theoretical knowledge with practical classroom applications.

Tabeer Shaikh

- The CISCE Zonal Training Programme was a highly enriching and insightful experience for all participating teachers. It enhanced understanding of modern teaching methods, curriculum planning, and effective assessment strategies. The sessions were engaging, practical, and interactive, focusing on activity-based, experiential, and competency-driven learning. Overall, the programme inspired educators to adopt innovative and student-centered approaches, strengthening the teaching-learning process.

THE MAGIC OF PRAYERS

When dreams fall short and wishes come true,
It's time to say to the Lord a big thank you
For leading a hurdleless path for you.
For man of today is a thankless animal,
Although he may realise, but will never admit it.
Don't speak aloud and tell the world but just
repose and silent murmuring will do.

You lie in his eye, he has approved it —
But do you still rely, is what you have to prove.
You may say it was your hard work,
But your luck was in His hands,
That on time it worked .

The opportunity was set by Him, if the path was
yours;

The pathway was set by Him — only the efforts
were yours.

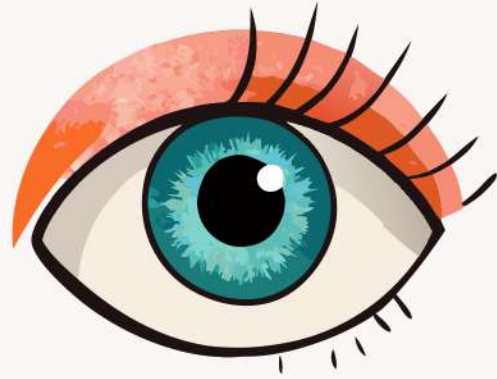

You are happy today, and may not be tomorrow,
But He does exist — is his way to give a reminder
caller.

Prayers work!!! 🙏
